

A Journey of  
Engineering to  
Perfection **SINCE 1995**

IATF 16949 / ISO 14001  
Certified Plants

## Your Belief, Our Promise

Precision Industrial Fasteners is a renowned manufacturer of High-Quality Cold Forged High Tensile Fasteners, Parts and Machined Components, founded in 1995. The organisation is known for offering fastening solutions to the world's leading companies across industries.

We are committed to producing fasteners that adhere to international standards and are tailored to meet customer-specific requirements. We continuously invest in quality, technology, machinery, and creative minds, which provide us the necessary tools required to achieve our goal of complete customer satisfaction. Our dedication to quality and innovation has made us a leading player in the fastener industry. We are a full-service provider boasting state-of-the-art infrastructure and providing services from product design to the final product at the customer's place.

## Vision & Mission

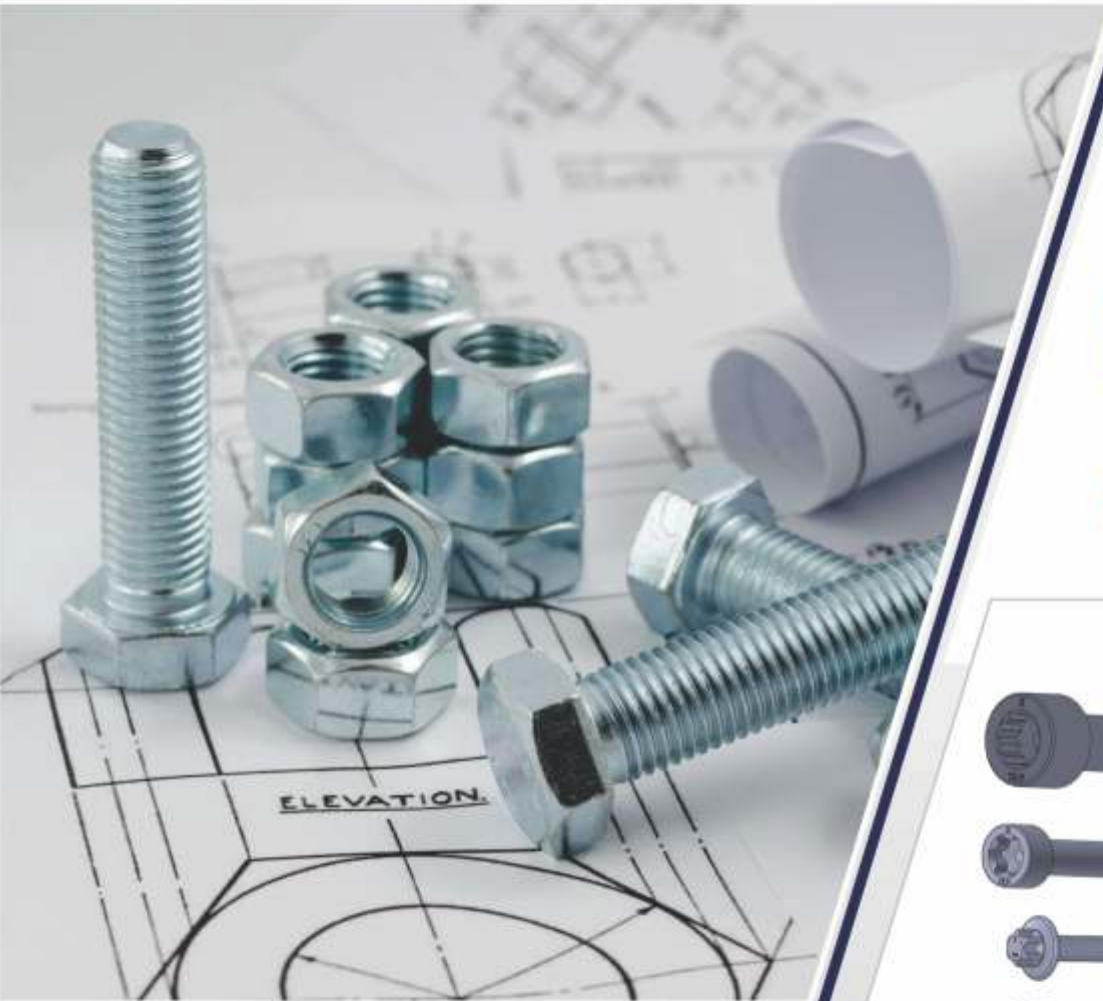

To make our products synonymous with trust and quality and to provide the best fastening solutions to OEMs and tier 1 companies globally.

To be the first choice of customers for standard, special and critical application fasteners across various industries and segments.

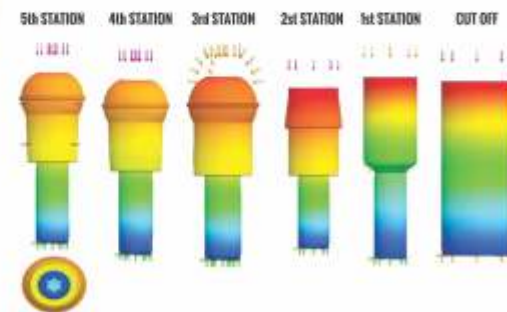

# Engineering

We have a skilled and experienced engineering team, who are Capable of designing and developing new products, as well as tooling design. Engineering equipped with designing & modeling software AutoCAD (2D) and Solid Works (3D) to create detailed and accurate models of our products.

Once the product is requested, we erase the existing methods and processes to reset our thinking. Be doing so, we will be able to escape from the fixed concepts and come up with fresh ideas to achieve the goal of the product.

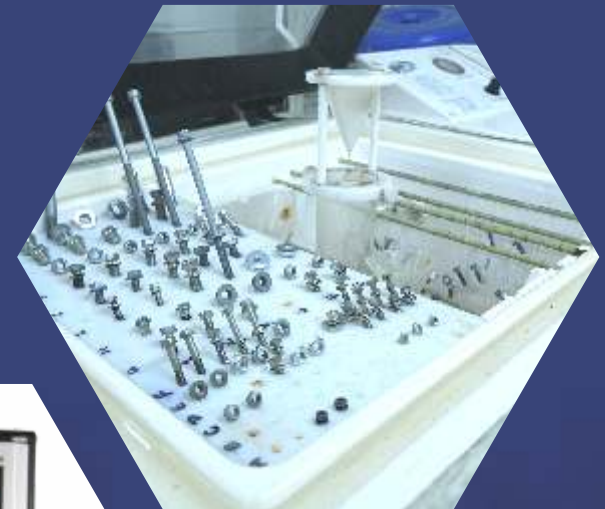

## QUALITY SYSTEM

Precision means quality, and quality has always been our primary focus. We ensure quality through the use of the best machinery, operator skills, quality systems, and complete traceability of the product. Our Zero Defects Management philosophy further strengthens our processes and systems to adhere to our commitment to defect-free products.

**Our labs are equipped with precise equipment to ensure quality, including :**

- » Microscope
- » Hardness Testers
- » Spectrometer
- » Profile Projector
- » Impact Tester
- » Optical and Eddy Current Sorters
- » Salt Spray Chambers
- » Magnetic Particle Inspection
- » Universal Testing Machine
- » Vision Measuring Machine

**IATF 16949 / ISO 14001 Certified Plants**

# MANUFACTURING

# MANUFACTURING

Our manufacturing facility has a tool room with latest EDM, CNC and VMC machines capable of producing 500+ dies per month. We are also equipped with cold forging machines, thread forming machines and various secondary operation machines to achieve tight tolerances. State-of-the-art heat treatment (CQI 9 compliant) with cutting-edge SCADA interface and surface treatment facilities with continuous data monitoring and recording systems are present, along with solutions for special coatings. We manufacture top-quality products to meet high standards for each specific application.

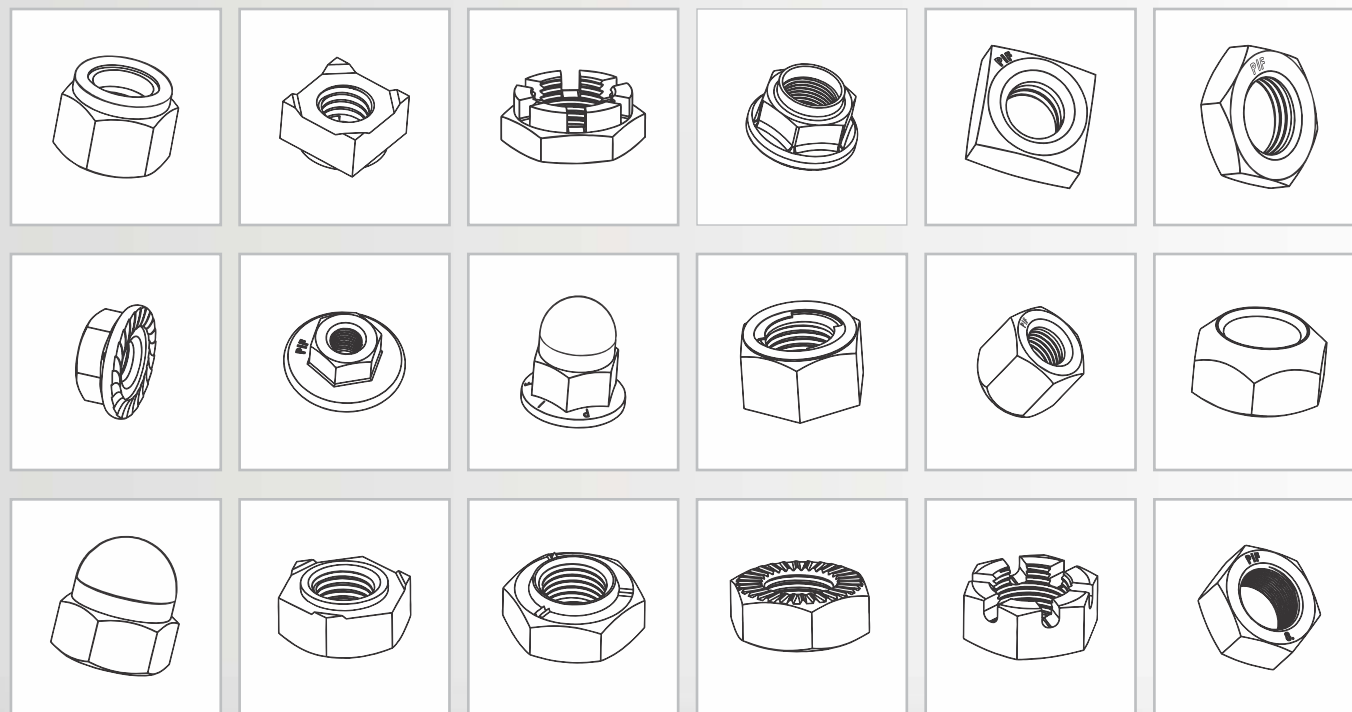

## PRODUCT RANGE

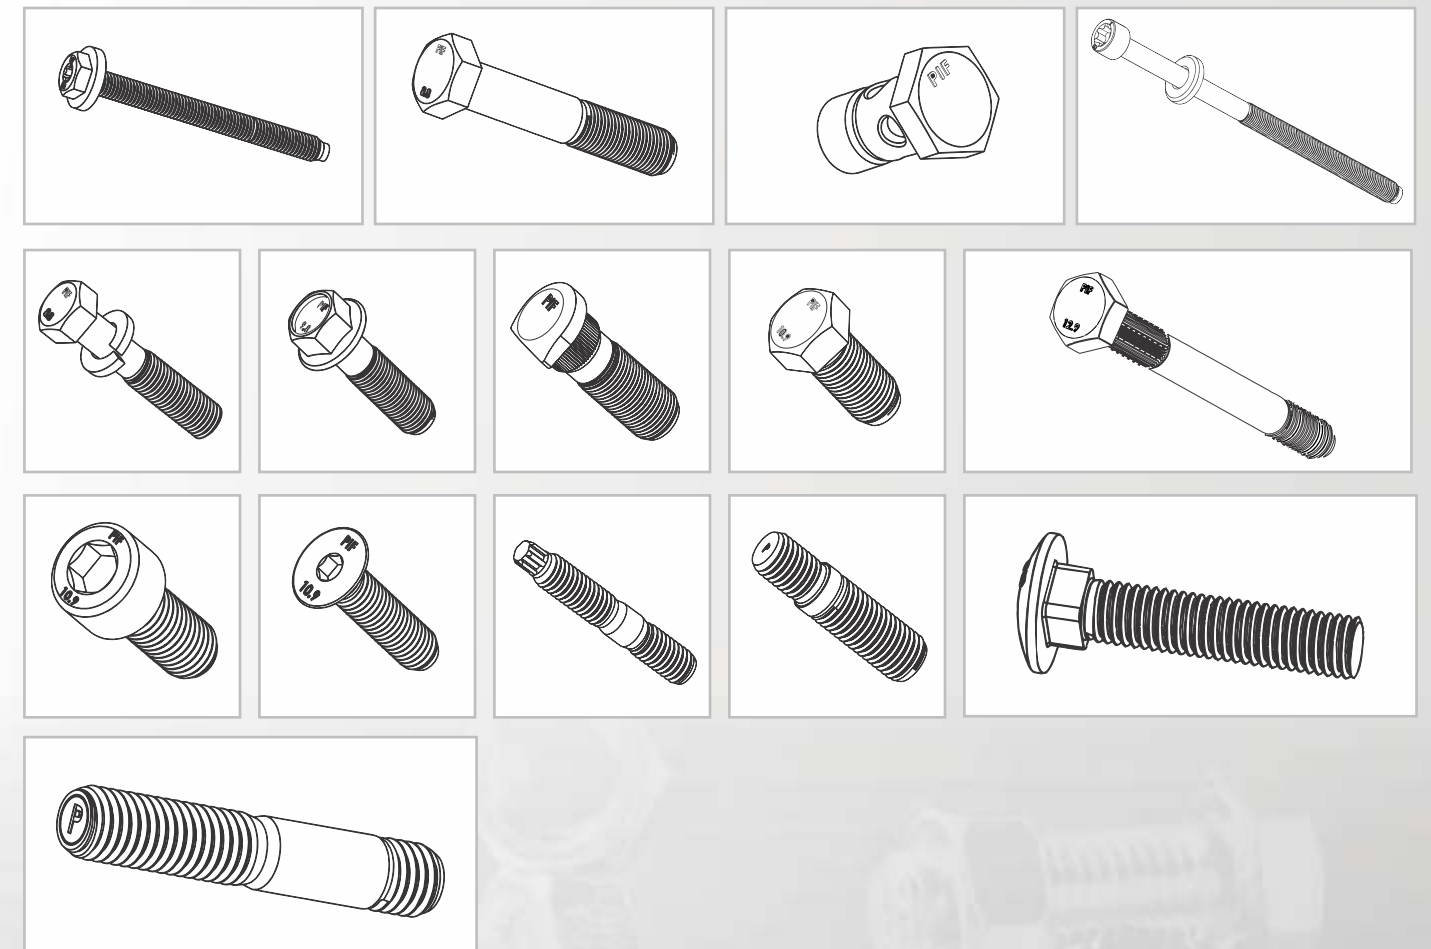

Manufactures fasteners and components for all applications:  
**Engine | Special | Chassis | Standard**

### Nuts

## PRODUCT RANGE

### Bolts & Studs

### Spring Washers

### GRADES:

8.8  
 10.9  
 12.9

**IS** Indian Standards

**DIN** German Standards

**JIS** Japanese Standards

**ASTM** American Standards

**BS** British Standards

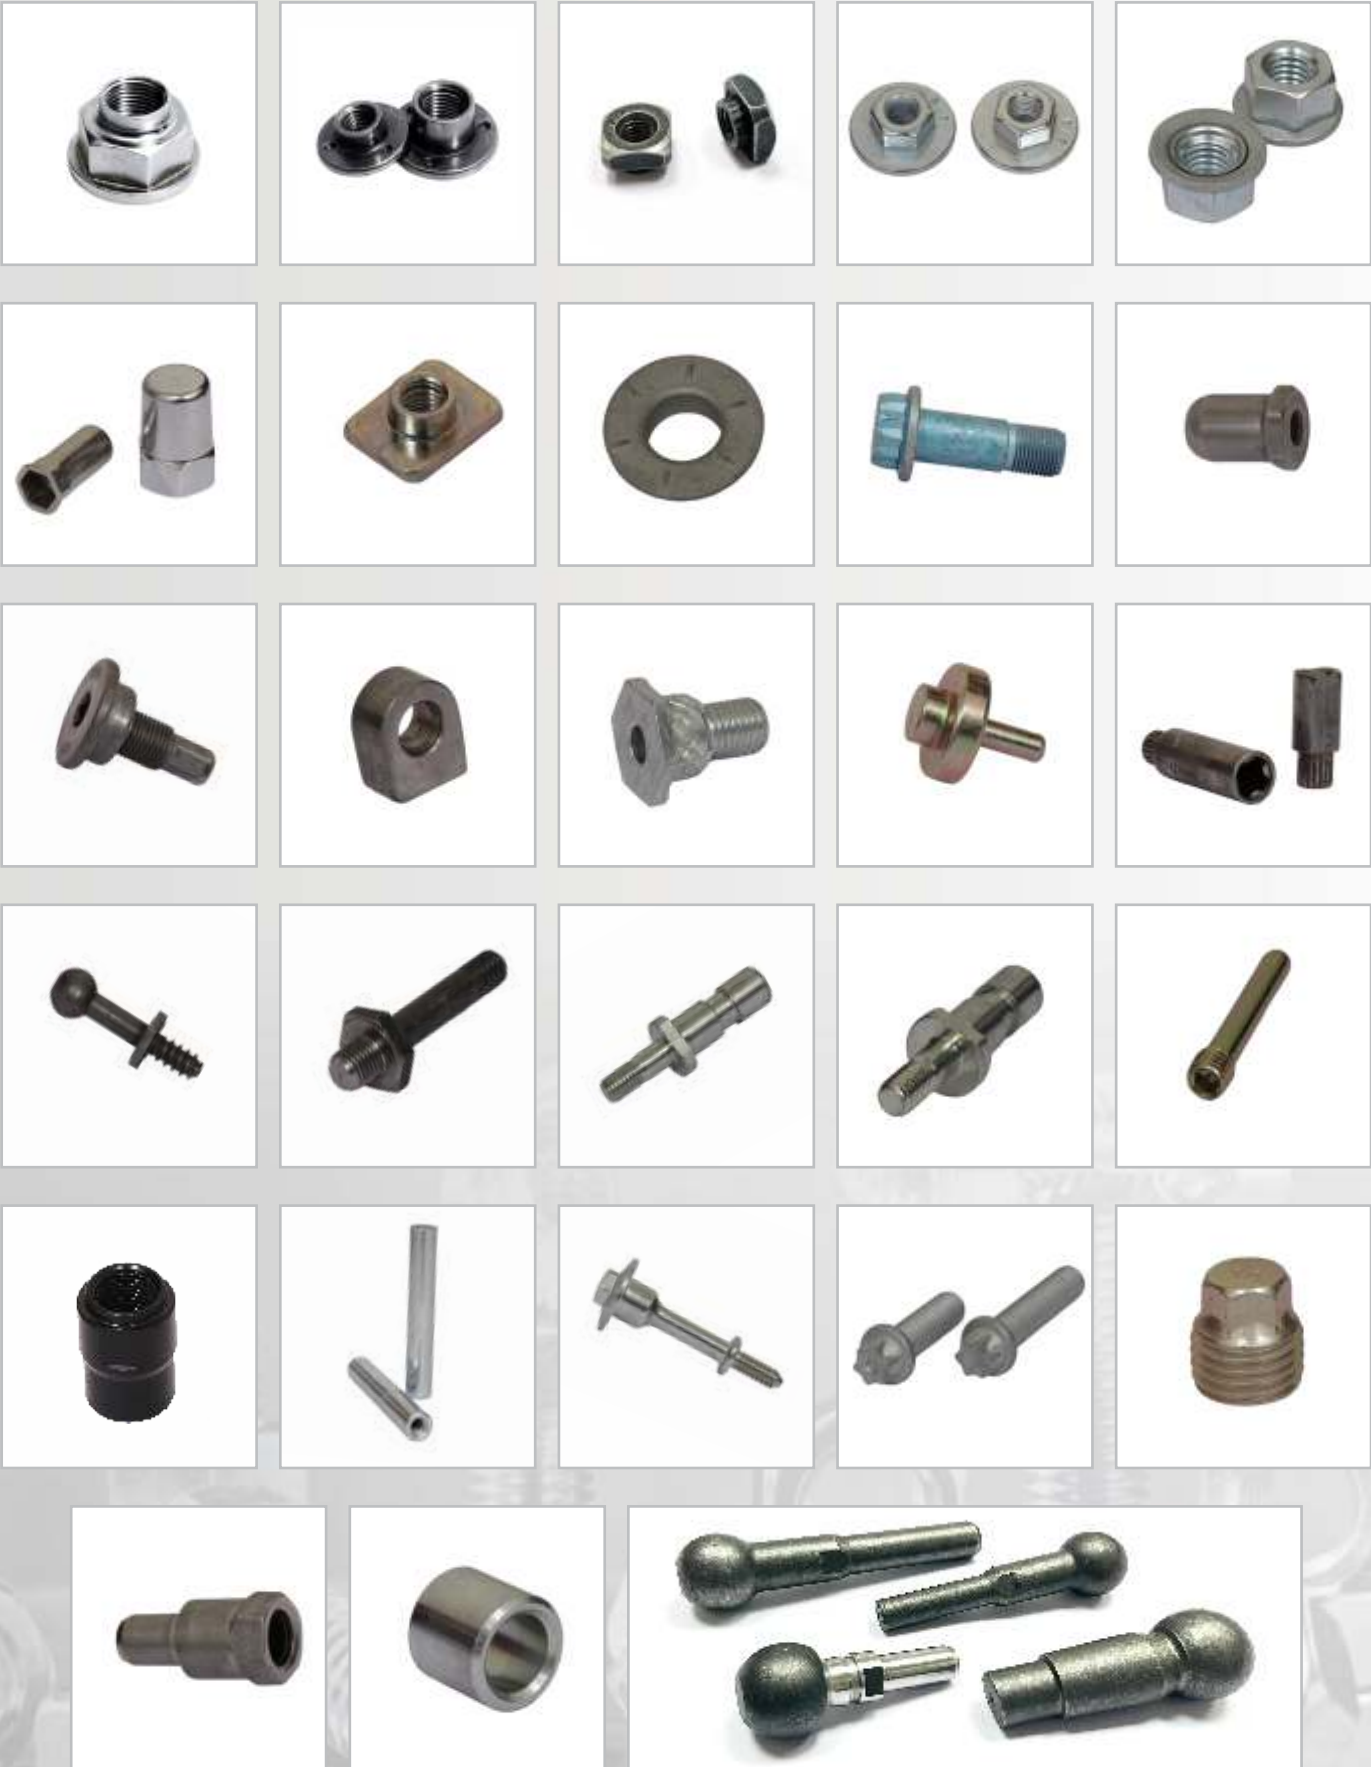

### SURFACE FINISH:

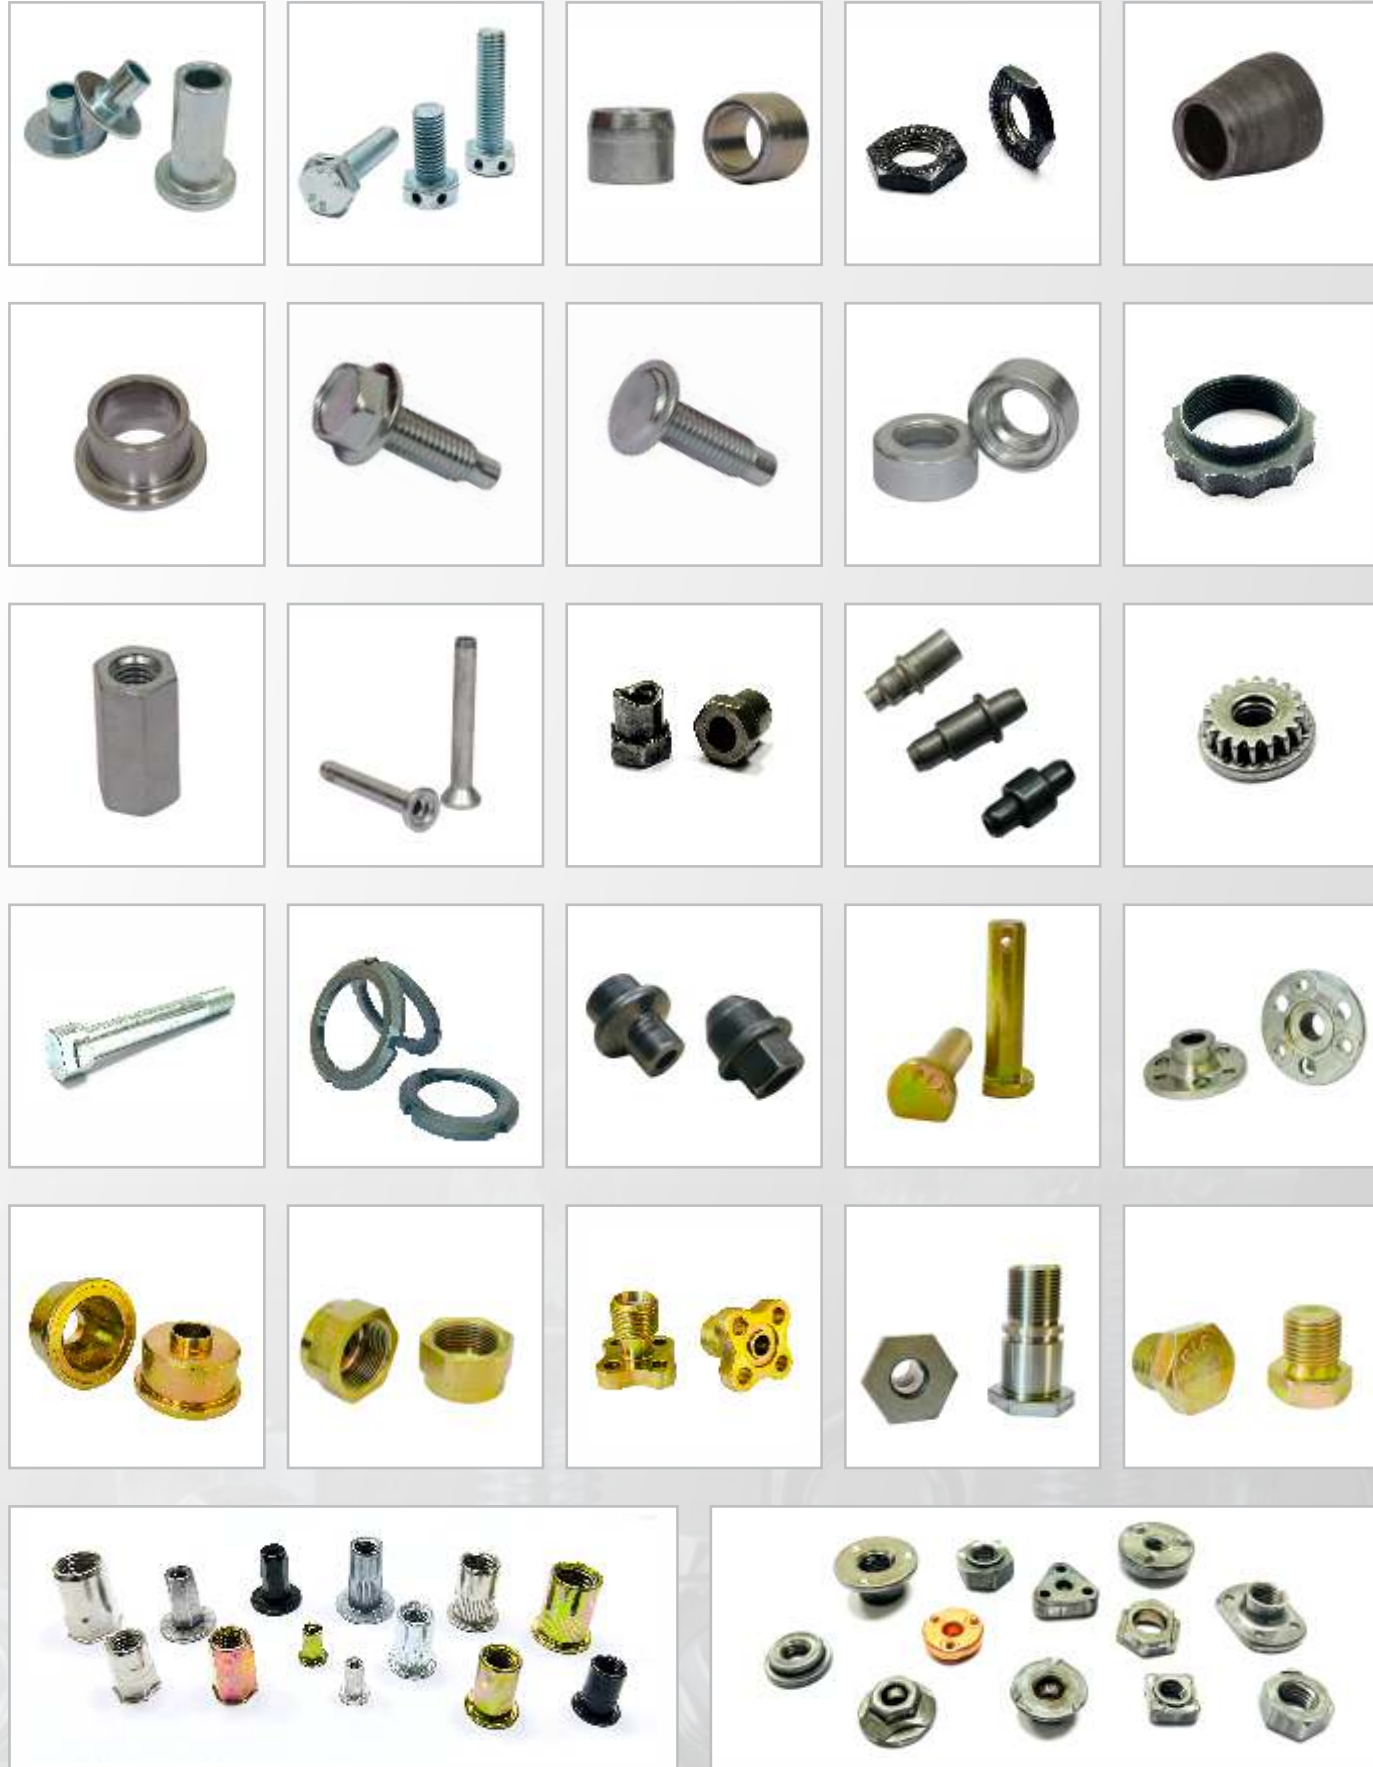

Electro Plating  
 Zinc Flake  
 Zinc Nickel  
 Patch/Sealant

## COLD FORMED SPECIALS

## SPECIAL APPLICATION FASTENERS
